

Attention: Citizens of Castle Rock and Castle Rock Business Community

The Second Downtown Design Meeting will be held Thurs. Dec. 9, 2004, 6:30PM, at Caffe Roma.

- ▶ The Downtown Design Project is a collaboration between the City, the Business Community, and Castle Rock Citizens to plan the future traffic patterns, parking, and look of the downtown business district. Mike Johnson, the City Engineer, is working to put your ideas into a design that is both practical and beautiful!
- ▶ Mr. Johnson will be bringing a preliminary design, created from the ideas that were shared at the first meeting. Come and see what your neighbors dreamed up! Share your own visions, and help shape the second design!
- ▶ Redesigning Cowlitz St. W will help attract tourism and commerce to downtown. This will ultimately benefit the entire community. Also, the creation of a relaxed atmosphere in the downtown area will help create a “sense of place” which, studies have shown, can help attract new business, creating potential job growth! A user-friendly and beautiful reconstruction of Cowlitz St. W will bring economic benefits to all Castle Rock Citizens.

Please come and join us for a hot cup of java and a productive brainstorming session! We welcome your ideas, comments, and suggestions!

If you have any questions, please contact-
Jessica Robertson at City Hall, T-F, 8:30-6:30.
(360) 274-8181 or jrobertson@ci.castle-rock.wa.us

We look forward to seeing you there!
